International application No.

PCT/JP2004/009617

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement**1. Statement**

Novelty (N)	Claims	1-14	YES
	Claims		NO
Inventive step (IS)	Claims	1-14	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-14	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)**Document 1: JP 2003-513633 A (DNAVEC Research Institute) April 15, 2003**

Document 1 cited in the international search report does not describe the inventions of claims 1-14, and therefore these inventions are novel and involve an inventive step. More specifically, document 1 does not describe a minus strand RNA virus having a foreign gene in which the wild type gene of a foreign gene contains a partial sequence in the antigenome E sequence of the minus strand RNA virus in the sense strand sequence, and the foreign gene contained in the minus strand RNA virus is modified to another sequence such that the partial sequence of the E sequence of the sense strand sequence reduces homology with the E sequence, and persons skilled in the art cannot easily conceive of this matter from the description in document 1.
